

## IOEA 2016

### 15th session of the Institutional and Organizational Economics Academy (ex-ESNIE)

From the 16<sup>th</sup> to the 20<sup>th</sup> of May 2016 in Corsica (France)

Using rigorous scientific methods, Institutional and Organizational Economics focuses on the theoretical and empirical analysis of institutions, organizations and contracts, as well as on the conditions under which these devices evolve.

#### Objectives

- To promote the use of appropriate methods to analyze governance, institutions and organizations.
- To provide researchers with up to date synthesis on the evolutions of the research program.
- To develop networking and cooperation among researchers and among their institutions.

#### Public

Ph.D. students, Post-docs and researchers, in Economics, Management, Political Science, Sociology, Law and other social sciences.

#### Program

Formal lectures will be given every morning. Each lecture is dedicated to the extensive presentation of the state of the art of the discipline on a specific applied or theoretical topic. Afternoons will be dedicated to workshops devoted either to research questions or methodologies. The seminars to be held in the second part of the afternoon will allow the attendants to have their work discussed by recognized scholars in the field.

#### From ESNIE to IOEA

In fourteen years of existence, the European School of New Institutional Economic (ESNIE) has become one of the most prominent events in research on institutional and organizational economics. The school has continually built up a dense and wide network of researchers and students interested in this dynamic field. In 2015, in order to adapt to the evolution of the discipline, ESNIE became the Institutional and Organizational Economics Academy (IOEA).
